## Cisco IP Communicator 8.6

Cisco® Unified Communications Solutions unify voice, video, data, and mobile applications on fixed and mobile networks, enabling easy collaboration every time, from any workspace.

### Product Overview

Cisco IP Communicator (Figure 1) is a Microsoft Windows-based soft-phone application that brings your work telephone to your personal computer. It is easy to deploy and includes some of the latest technology and advancements available for IP communications today. This application gives computers the features of IP phones, enabling high-quality voice calls on the road, in the office, or from wherever you have access to the corporate network.

**Figure 1.** Cisco IP Communicator

Cisco IP Communicator is designed for users who require a supplemental telephone when they are away from their desk phone, traveling, or telecommuting. When using Cisco IP Communicator remotely, you are not just taking your office phone with you, you continue to have access to the same familiar phone and video telephony services that you have in the office. This advantage boosts business collaboration and responsiveness and helps organizations keep pace with today's mobile business environment.
